

Consolidated Technical Support Services (CTSS) for the Department of Energy Environmental Management Program

BGS is the managing partner of BTP Services, LLC, the prime contractor for the DOE Environmental Management Program Consolidated Technical Support Services (CTSS) contract. The CTSS contract is a five-year ID/IQ basic ordering agreement that provides comprehensive technical support, evaluation, assessment, policy development, and subject matter expertise for Field Operations (EM-3), Regulatory and Policy Affairs (EM-4), and Corporate Services (EM-5) across the DOE complex and with international partnerships. BTP Services, LLC is a team of trusted and highly capable firms with deep histories of delivering critical support for DOE headquarters.

CTSS provides DOE Headquarters Environmental Management Program Offices with the needed depth and breadth of technical, engineering, and scientific expertise to support their large (more than \$6B annual) and complex federal mission. Our experience with complex federal program operations and access to subject matter experts across a broad array of technical disciplines allows us to support strategic, financial, technical, and policy needs. CTSS provides engineering and technical evaluations for large complex and technically challenging programs. We support policy development and regulatory interactions at the state, federal, and international levels in the areas of waste management, transportation, and environmental cleanup. CTSS provides oversight and reviews for cost and performance of large federal projects. We support strategic planning, program planning, and the development, submittal to congress, and management of multi-billion dollar federal program budgets.

CTSS provides DOE with a comprehensive suite of technical expertise, support and subject matter experts (SMEs) in broad areas that include, but are not limited to:

- **Field Operations**
